

30 March 2023

Our Ref: LTA/CP(ERI)/C37.040.012/942

Dear Residents / Stakeholders,

Construction of Roundabout at the Junction of Marymount Rd, Sin Ming Ave and Bishan St 22

Thank you for the support and understanding towards NSC project.

We would like to inform you that our Contractor, Hwa Seng – Chye Joo – Ho Lee Joint Venture will be constructing a signalised roundabout at the junction of Marymount Rd, Sin Ming Ave and Bishan St 22. The upcoming implementation of roundabout is necessary as it helps to expedite the construction timeline for diaphragm wall works, reduce the number of traffic diversions and most importantly, to enhance the safety of the surrounding stakeholders.

Please refer to the site plan below for your information.

Work Activities	*Duration of Works
Preparation works for construction of roundabout at the junction (including footpath diversion, installation of traffic lights works, d-wall hacking, premix works, and lane marking)	01 Apr 2023 to 30 Apr 2023 (Day and Night works)
Implementation of the temporary signalised roundabout	29 Apr 2023 to 30 Apr 2023

*Subject to site constraints and weather conditions

Our contractor would be carrying out road works in day and at night as well as lane closure along the abovementioned road from **01 Apr 2023 to 30 Apr 2023**. Please note that pedestrian crossing and footpath will be diverted onsite to facilitate the road works. Way-finding signs will be displayed on site to direct road users along the new footpath (in blue) and pedestrian crossing (in red).

We seek your kind understanding that intermittent noise and dust may arise during the works. Temporary barricades and directional signage will be set up for safety purposes, to guide the pedestrians, direct and caution motorists of the change in traffic direction. We will work with our contractor on the necessary mitigation measures to minimize the inconveniences to the surrounding stakeholders.

Should you have any queries, please contact our Contractor’s Public Relations Officers at the Project Hotline **9146 0080**.

Yours faithfully,

Kim Kian Meng
