

**Accessible To You**

Do You Prefer Your Processing Unit To Be...

**Hidden From View**

Possible Installation Positions

**Front Passenger Footwell\***

**Any Technically Feasible Position Within Driver's Area**

*Bolts & Nuts will be used to fasten the Processing Unit into the vehicle panel for safety reasons.*

Implications

- Potentially difficult to access the Processing Unit and CEPAS card inside.
- **As such, you are encouraged to sign up for NETS auto-reload or backend payment to avoid manual top ups.**
- However, some carpark will still **require motorists to remove the card/have spare card** with sufficient value to tap at terminal stations.

Possible Installation Positions

**Under Glove Box\***

**Under Driver's Seat**

*Processing Unit will come with a fitting base, for installation in this position.*

*\*Adhesive will be used first. If not feasible, Bolts & Nuts will be used to fasten the Processing Unit into the vehicle panel.*
